

When considering your next purchase of hoses, look no further than Haviland Contoured Plastics. All of our products are made from the finest, most durable materials, ensuring that whatever your needs, we have the product for you.

I-Helix®

If temperature and chemical resistance are critical considerations for your project, this is for you. Scientifically designed and crafted with the finest materials, the I-Helix provides superior flexibility and strength, maintaining optimal flow even when tightly coiled. When considering the alternatives, it's easy to see why I-Helix remains the finest product of its kind.

- Abrasion-resistant outer shell
- Colors can be custom-made
- Superior kink-resistant design
- Ultraviolet-resistant base

PERFORMANCE

Temp Range CP, TM:
-40° to +140° F

| Size I.D. (Inches) | Weight Per Foot (lbs) | Center Line Bend Radius (Inches) | Neg. Pressure* (Recm'd Hg) |
|--------------------|-----------------------|----------------------------------|----------------------------|
| Style CP | | | |
| 1.25 | .18 | 2.55 | 29" |
| 1.5 | .26 | 3.00 | 29" |
| 2 | .42 | 4.50 | 29" |
| 2.5 | .48 | 5.00 | 29" |
| 3" | .66 | 7.50 | 29" |
| 4" | .98 | 9.50 | 29" |
| Style TM | | | |
| 1.5 | .27 | 3.25 | 29" |
| 2 | .38 | 4.75 | 29" |

Based on Straight Lengths of hose at 70°F
